

THE TOUGHEST ROOFS FOR BEAUTIFUL SPACES

Presenting

APLAPOLLO
ROOFTUF
India's Roofing Specialist

ABOUT US

Sudesh Group

Sudesh Group is India's leading Steel Tubes and PVC Pipes manufacturer with 13 plants across different locations in the country. It's a pioneer in steel tubes of different types and shapes. For over 3 decades, SG Group has been revolutionizing the Steel Tubes manufacturing industry.

APL Apollo is India's largest manufacturer of steel pipes and tubes, with an annual capacity of more than 2.5 million tons. A part of the SG Group, the company caters extensively to the domestic region and exports to over 20 countries globally. Today, APL Apollo is the unrivalled pioneer of breakthrough innovations in the steel pipes industry.

With APL Apollo RoofTuf, APL Apollo is foraying into the world of path-breaking roofing solutions

that give your structures the unmatched strength and class-apart style that they deserve. APL Apollo RoofTuf has been conceived to provide world-class solutions of metal roofing systems for residential roofs, industrial sheds, warehouse sheds, commercial buildings and other infrastructure.

YOUR ROOFS LOOK AFTER YOU. SO WE LOOK AFTER THEM.

Every home is a representation of the people who dwell in it. It is a collection of what you love brought together under one roof. The irony is that though we bring all things beautiful under our roof, but the one thing that stays the most ignored in this process is the roof itself.

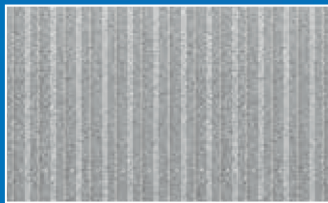

That's why APL Apollo brings to you APL Apollo RoofTuf – India's Roofing Specialist. We offer you roofing sheets that are not just strong and beautiful on the outside, but are equally mesmerizing from the inside as well. What's more, our wideh range of solutions ensure that you don't have to worry about a thing when it comes to your home's roofing.

Your home deserves a **dash of colours.** On the outside as well.

Choose from an array of beautiful colours and take the passion to beautify your home a notch higher. To the roof. With a wide spectrum of colour options, be spoilt for choice.

Bare Galvalume

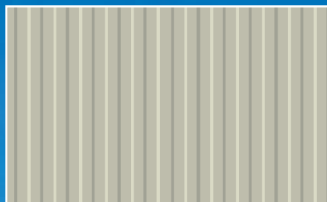

Light Blue

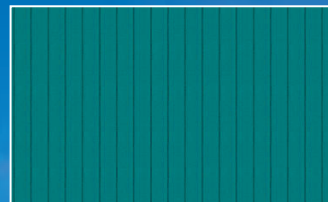

Brick Red

Caulfield Green

O White

Turquoise Blue

Any specific colour can also be supplied on demand**

APL Apollo RoofTuf's Technical Framework

Profiling

Our profile design is best combination of effective coverage width and strength and also profiled with 100% dimensional accuracy.

Product Technical Specification (For Retail)

Prepainted Galvalume Iron (PPGL)

Thickness	:	0.45mm and 0.50 mm are available
Metallic Coating	:	AZ-70 and AZ-150 are available
Tensile Strength	:	550 Mpa
Paint Coating	:	RMP (Regular Modified Polyester)
Paint Thickness	:	20 to 25 micron Top & 08 to 10 micron Bottom respectively
Coating Standard	:	A755 / A792, IS277, JISG3321
Composition	:	AL 55%, Zn 43%, Si 2%

Product Technical Specification (For Project)

Recommended Product Specification (For Projects)

Prepainted Galvalume Iron (PPGL)

Thickness	:	0.50mm
Metallic Coating	:	AZ-150
Tensile Strength	:	550Mpa
Paint Coating	:	SDP (Super Durable Polyester)
Paint Thickness	:	20 to 25 micron Top & 08 to 10 micron Bottom respectively
Composition	:	AL 55%, Zn 43%, Si 2%

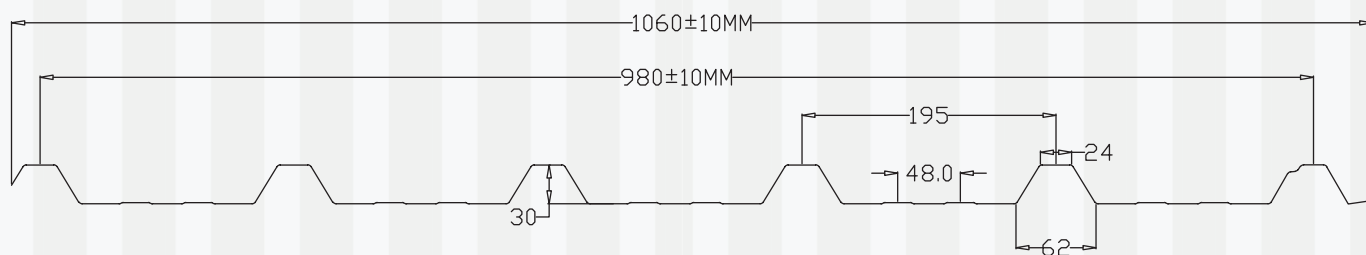

Roofing Sheets

Following features of this profile gives additional strength to sheets

Rib Height	:	30mm
Baby Rib Height	:	02mm
Total number of High Ribs	:	6

This profile is best combination of strength and effective width

Crest Distance	:	200mm
----------------	---	-------

Crimping

By Crimping process we can manufacture curve sheets as per specified radius.

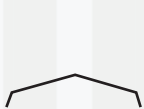

Ridges

Ridges can be manufacture in customized Lengths.

U-Shape Gutters

Gutters can be manufacture in customized dimensio
